## Anti-Doping Annual Report

This report will be presented to an SHPF Executive Committee Meeting to be held on 18/01/2022, and if approved by the committee, the report will be made available via the SHPF website. The report covers the period 01/01/21 – 31/12/21.

A new version of the World Anti-Doping Code was launched on 1 January 2021. The Code is an essential document which harmonises anti-doping policies, rules and regulations around the globe and impacts all athletes, coaches and sports organisations.

UK Anti-Doping is the national body responsible for creating a UK-wide environment of confidence in clean sport. In the UK, UKAD ensure sports bodies comply with the World Anti-Doping Code through implementation and management of the UK's National Anti-Doping Policy.

SportScotland have advised the SHPF that continued financial investment in the SHPF by SportScotland is contingent on SHPF compliance with current UK Anti-Doping (UKAD) requirements.

The current SHPF Anti-Doping Policy, which was approved on 23/11/2016, simply states that the SHPF will comply with the current UKAD Rules.

To meet the current UKAD Rules during 2021 the SHPF made progress on meeting the requirements contained in a UKAD online Protecting Sport Assurance Framework document prepared for the SHPF. The Framework consists of 24 requirements which the SHPF must comply with, and provide evidence of compliance to UKAD.

To meet all the UKAD requirements new policies and procedures are required e.g. a Clean Sport Education Strategy & Implementation Plan, and some existing SHPF policies and procedures will have to be modified e.g. the SHPF Privacy Notice to allow data sharing with UKAD.

The SHPF are currently working to comply with the 24 requirements listed below and it is planned that full compliance with the new requirements will be achieved during 2022.
